INFT 5028 — Daily Scrum Notes

Capstone Project for Business Intelligence and Analytics

Meeting

Team	Team Charlie	**Date**	13/05/2026
Scribe		**Facilitator**	Pat

Attendees	

Standup — three questions per member

Each member answers: (1) What did I complete since the last scrum? (2) What am I working on today? (3) What is blocking me?

Member	Completed since last scrum	Today's plan	Blockers
Danielle	Updated Power BI visuals for Thursday presentation.	Finalize Week 4 documentation deliverables, including internal review feedback, DAX measure documentation validation; Perform final QA on Power BI report (filters, cross-visual interactions, and consistency), and prepare remaining polish tasks as GitHub issues	None at this time.

Blockers requiring instructor attention

Anything in the Blockers column above that the team cannot resolve internally — list it here so it carries over to the Thursday checkpoint.

Blocker 1:

Blocker 2:

Blocker 3:

Decisions & action items

Decision / Action item	Owner	Due
Shift focus from visual-first exploration to measure-driven analysis (BI approach)	Danielle	May 11–15
Use link and cleanup model and GitHub folders as required: https://dolinger.ca/bia/bi-capstone-checklist.html	Danielle	May 13

Submit at Thursday checkpoint as evidence of daily standups.
