INFT 5028 — Daily Scrum Notes

Capstone Project for Business Intelligence and Analytics

Meeting

Team	Team Charlie	**Date**	08/05/2026
Scribe		**Facilitator**	Pat

Attendees	

Standup — three questions per member

Each member answers: (1) What did I complete since the last scrum? (2) What am I working on today? (3) What is blocking me?

Member	Completed since last scrum	Today's plan	Blockers
Danielle	Reviewed instructor feedback from Checkpoint 2 and aligned on shift toward measure-driven Business Intelligence analysis. Reflected on current data model and identified the need to prioritize DAX measures and analytical questions over visualizations.	Begin translating existing analytical findings into BI-driven questions and draft core DAX measures. Review the star schema with a focus on supporting frequency, variability, and comparison measures for precipitation and extreme events.	None at this time.

Blockers requiring instructor attention

Anything in the Blockers column above that the team cannot resolve internally — list it here so it carries over to the Thursday checkpoint.

Blocker 1:

Blocker 2:

Blocker 3:

Decisions & action items

Decision / Action item	Owner	Due
Shift focus from visual-first exploration to measure-driven analysis (BI approach)	Danielle	May 11–15
Define and document core DAX measures to answer key analytical and business questions prior to dashboard design	Danielle	May 11

Submit at Thursday checkpoint as evidence of daily standups.
